

Size Chart & Measuring for a Black Dog Infin8 Halter

By measuring your dog's Muzzle & Neck in the way shown below, you can accurately select the correct size Infin8. We do not list sizes by breed type as there can be variations in muzzle size/shape between individual dogs within a breed type and much greater variations with cross breed dogs. You will get the most accurate fit using the Figure 8 Measurement and Chart listed below...

To determine the correct size...

Place a soft tape measure across the bridge of your dog's nose, wrap it around the muzzle (crossing it over below the dog's jaw) and then around the neck to meet at the back of the neck, this forms a Figure 8 around the Muzzle & Neck.

Pull to a snug fit and write down this measurement.

Use your Figure 8 Measurement to Select an Infin8 size...

Figure 8 Measurement in centimeters...

	Minimum (cm)	to	Maximum (cm)
Infin8 - Size 1	40 (cm)	to	51 (cm)
Infin8 - Size 2	51 (cm)	to	68 (cm)
Infin8 - Size 3	60 (cm)	to	77 (cm)
Infin8 - Size 4	70 (cm)	to	93 (cm)
Infin8 - Size 5	76 (cm)	to	107 (cm)

Figure 8 Measurements in Inches...

	Minimum (inches)	to	Maximum (inches)
Infin8 - Size 1	15½ (inches)	to	20 (inches)
Infin8 - Size 2	20 (inches)	to	26½ (inches)
Infin8 - Size 3	23½ (inches)	to	30¼ (inches)
Infin8 - Size 4	27½ (inches)	to	36½ (inches)
Infin8 - Size 5	30 (inches)	to	42 (inches)

Important: If your dog's measurement fits between 2 sizes, generally select the smaller size Infin8, unless you have a young, growing dog where the overlap between sizes is used to account for growth.
